

Summit is a hybrid flooring brand focused on bringing the best in durable, pet-friendly flooring to your home.

Summit Hybrid Flooring uses the best materials to create planks which are resilient in the face of both water and pet accidents. The rigid, floating layer technology of hybrid flooring combines with special pet-resistant material in this distinctive flooring option.

The Summit brand also features a stain-resistant, claw-resistant top layer perfect for homes with furry friends. The result is a flooring that looks luxurious, but can come through pet accidents and claws without a scratch. Summit stands up against even the wildest pets and their crazy antics.

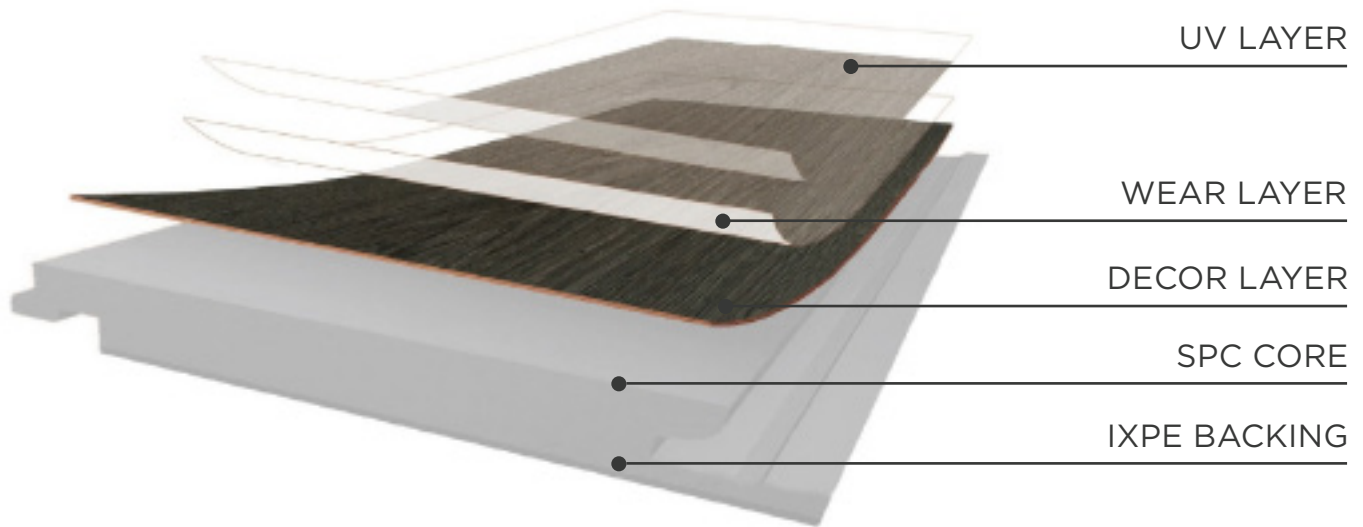

Flooring

The Summit brand come in a variety of fun, classic colours. If you are interested in lighter, natural hues inspired by popular Australian species, choose the Blackbutt or Spotted Gum colours. For a modern, elegant twist to a room, look for the grey hues of the Mist or Gum colours.

Extrusion SPC

SPC is a new resilient sheet flooring with super-strong click; its click strength is more than three times as regular LVT click.
